GAINING CONTROL: CAPACITY MANAGEMENT AND SCHEDULING

DOWNLOAD

John Wiley & Sons Inc, 1995. Hardcover. Book Condition: New. Dust Jacket Condition: Near Fine DJ faint wear. New EDITION. John Wiley & Sons Inc 1995 New EDITION New/Near Fine DJ faint wear HARDCOVER. DescriptionAs someone responsible for getting-and keeping-your manufacturing facility on track, do you ever ask yourself: Why do we always seem to be in a state of mass confusion Is it possible to the product on time How do we meet our customers' demands without promising too much and delivering too little Why are costs continually rising, and what can be done to curb them Written by James Correll and Norris Edson, two principals with Oliver Wight, LLC, this comprehensive resource, now completely revised and expanded, provides the answers you need for Gaining Control of your operation. To illustrate the essential elements that go into the smooth and effective running of a manufacturing facility, the authors take you inside the fictitious Hayes Tractor Company. By following its manager, Brian Miller, you'll observe all-too-recognizable problems-from meeting orders in a timely fashion to securing the right people and parts -learn what can be done to solve them, then apply the solutions to your own situation. Gaining Control shows you the detailed steps necessary to gain control by matching plant capacity to production needs using a combination of tools, such as Just-in-Time, MRP II, and finite scheduling, as well as new innovative trends like lean and agile manufacturing-all of which can be used to obtain confusion-free, efficient operations in a single or multiplant environment. Packed with sample calculations, helpful charts, and useful tables, here's where you'll find complete information on: * Constructing routings and work centers * Mastering dispatching and scheduling * Controlling work flow * Scheduling to capacity constraints * Applying rough-cut capacity planning * Continuous improvement By implementing...
