Not illustrated. 1902 Excerpt: .be a good plan for a railroad to purchase a large number of the socalled First Aid packages similar to those at present used in the army? These packages could be distributed to proper disbursing officers, to be placed at stated intervals along the line of the railroad. Conductors, brakemen. in fact, the entire crew of a train, should be given one First Aid package, which he be required to carry on his person, together with a set of rules giving instruction as to the care of the wounded. Passenger coaches should contain a small chest with sufficient First Aid material to care for at least a dozen people.--Medical Age. Analgesic Methods and Their Respective Limitations. Professor J. V. Mikulicz of Breslau, says: Apart from the minor procedures, numerically important though they be in medical practice, the only local analgesic that we need consider nowadays is...
