

The Natural Drug Extraction is and Isolation Technology.

Filesize: 9.72 MB

Reviews

Very beneficial to any or all class of individuals. It is rally interesting through looking at time. You will not feel monotony at at any time of your time (that's what catalogs are for concerning in the event you question me).

(Dr. Dallas Reinger IV)

THE NATURAL DRUG EXTRACTION IS AND ISOLATION TECHNOLOGY.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 381 in Publisher: Zhejiang University Press; 1st edition (October 1. 2011). With the continuous development of synthetic chemical drugs and biopharmaceutical technology. China's traditional Chinese medicine / natural medicines. pharmaceutical raw materials (active ingredients or effective area) the quality and quantity of concern become a research hotspot. First. one-third of the clinical application of drugs from natural products or natural product developed from lead compounds; Second. the 2005 version and 2010 version of Chinese Pharmacopoeia a number of extract items significantly increase; a large number of foreign medicine sold back to the country to occupy the high price of proprietary Chinese medicines market. Therefore. we feel an urgent need to write a natural drug extraction and separation technology materials. and strive to contribute to the revitalization of the national medicine. Natural drug extraction and separation technology is a natural drug development and production processes. research and design of efficient. safe and economical natural drug extraction and separation processes. the study extraction and separation process principles and design of extraction and separation process of order. natural medicine. the pharmaceutical manufacturing process optimization a discipline. Natural medicine. pharmaceutical technology research extraction separation process principle. procedure. process conditions. to solve natural medicine in the extraction. separation and purification. concentration and drying step of the process. the process routes identified and process conditions optimization provide a theoretical basis and application of technology for large-scale production of herbal / natural medicines. Jin Litai editor of the natural medicine extraction and separation technology. in two parts: the general part describes the process and technical parameters of the basic concepts of practical techniques. principles and characteristics. methods or equipment. deep out to...
